

N 148th Street Non-Motorized Bridge

PROJECT OVERVIEW As Shoreline is growing and changing around the light rail station area, the City is finding ways to connect people to the station safely and efficiently. A new pedestrian and bike crossing over I-5 at N 148th Street will strengthen those connections.

You're Invited!

Please join us to learn about the project and give feedback. We want to know your thoughts on the design options for the bridge, how it connects to the station on the east side of I-5 and how it connects to the neighborhoods on the west side of I-5.
