7. Creating affordable housing options is and will continue to be crucial to our community. As we increase multi-family units and apartments for housing, we also need to increase space for businesses that creat jobs for the people living in and near those units. We should create a community where people can live and work in the same area without relying on a 40 minute community to get to work. Multi-purpose units that allow people to live and work in one community is foundational to a healthy thriving local economy and environment.
8. Not answered

Thank you,
City of Shoreline
