6. Amendment 3
7. I am really troubled by the fact that the historic North City Business District is being steadily converted into apartments only. Our city should have a variety of gathering places and services that support residential development and population growth.

The city should promote quality buildings, functionality, and walkability with development that is compatible with the surrounding area and helps people live, work, and play in their neighborhoods.
Shoreline should be creating a business-friendly environment that supports small and local businesses that serve the community. The city should encourage local neighborhood retail and services throughout the city. I want my kids to be able to enjoy our neighborhood and our city and not just come home to sleep. I want to support shoreline with my tax dollars and not have to spend all my money in Lynnwood, Mountlake terrace or Seattle. Please catch shoreline up with the rest of our neighboring cities. Support Amendment number 3.
8. (o) Support

Thank you,
City of Shoreline
