6. 9. b Amendment No. 3
7. I am in full support of the proposed Amendment No. 3, which would set a new policy to require commercial use in commercial zones. I am troubled that all of our current business districts in Shoreline are experiencing "apartments only" and business as an option for new construction. Our city not only needs places to live, but it should also promote quality buildings, functionality, and walkability with development that is compatible with the surrounding area. This includes space for new business. Not just at Shoreline Place - but in all of our commercial areas. Shoreline should be creating a business-friendly environment that supports small and local businesses that serve the community. I want to live in a community that provides my needs as a consume. This includes local retail and services. But not requiring ground floor commercial in new development in commercial business areas, you are literally sending me out of Shoreline to buy my groceries, books, clothing, shoes, jewelry, appliances, home décor items, furniture and pretty much everything else. I want to live in a city that encourages local neighborhood retail and services throughout the city. Please amend the Land Use Element to include a new policy requiring commercial uses within commercial and mixed-use zones. Thank you,
Patty Hale
