Subject: New Sidewalk Project: 1st Avenue NE (NE 192nd Street to NE 195th Street)

Dear Shoreline Resident:

I'm excited to share that the City of Shoreline has begun planning for pedestrian improvements in your neighborhood. This spring, our consultant team, DOWL, will begin designing a new sidewalk for 1st Avenue NE between NE 192nd Street and NE 195th Street. This new sidewalk will connect with existing public facilities in the area.

These improvements are part of a voter-approved effort to build and repair sidewalks throughout the City. In the coming months, DOWL will develop a design that includes pedestrian facilities with possible curb and gutters, curb ramps, alternatives for planters, drainage improvements, bicycle facilities and utility coordination.

We are committed to developing a design that meets the community's needs. There will be opportunities for the public to learn about and comment on this project later this year. In the meantime, you can learn more at shorelinewa.gov/sidewalks.

Additional background on the City's Sidewalk Prioritization Plan can be found at shorelinewa.gov/sidewalks.

Construction of this project may require work adjacent to or on your property. In some cases, we may need to pursue temporary easements between you and the City. If this applies to your property, our real estate consultant Universal Field Service will be contacting you in the next two months.

We look forward to developing a project that will serve you and your neighbors for years to come. If you have questions or comments, please don't hesitate to contact me.

Sincerely,

Patricia C. Jenkins
