Subject: New Sidewalk Project: 1st Avenue NE (NE 192<sup>nd</sup> Street to NE 195<sup>th</sup> Street)

Dear Shoreline Resident:

I'm excited to share that the City of Shoreline has begun planning for pedestrian improvements in your neighborhood. This spring, our consultant team, DOWL, will begin designing a new sidewalk for 1<sup>st</sup> Avenue NE between NE 192<sup>nd</sup> Street and NE 195<sup>th</sup> Street. This new sidewalk will connect with existing public facilities in the area.

These improvements are part of a voter-approved effort to build and repair sidewalks throughout the City. In the coming months, DOWL will develop a design that includes pedestrian facilities with possible curb and gutters, curb ramps, alternatives for planters, drainage improvements, bicycle facilities and utility coordination.

We are committed to developing a design that meets the community's needs. There will be opportunities for the public to learn about and comment on this project later this year. In the meantime, you can learn more at [shorelinewa.gov/sidewalks](http://shorelinewa.gov/sidewalks).

Additional background on the City's Sidewalk Prioritization Plan can be found at [shorelinewa.gov/sidewalks](http://shorelinewa.gov/sidewalks).

Construction of this project may require work adjacent to or on your property. In some cases, we may need to pursue temporary easements between you and the City. If this applies to your property, our real estate consultant Universal Field Service will be contacting you in the next two months.

We look forward to developing a project that will serve you and your neighbors for years to come. If you have questions or comments, please don't hesitate to contact me.

Sincerely,

*Patricia C. Jenkins*
