7. It's a major crime concern living within such a close radius to where they are planning to develop a 60+ bed low-barrier homeless shelter. This presents a major concern to all of the residents living within the surrounding area.

I live off of 165th & N Park Ave North and moved here because it was close enough to HWY-99 to commute to work by bus, but removed enough from the high-crime areas of Aurora. This decision would effectively turn this portion of 99 and the surrounding neighborhood into a hotspot for drug activity and substance abuse, and jeopardize the health and safety of the entire community. Working in Ballard I have seen this first hand: Car-prowls and burglaries will become a daily occurrence, syringes and tents will line our neighborhood streets, and a casual stroll will become a constant look-over-your-shoulder routine.

To make matters even worse, I am assuming that this location would be providing refuge to those who have been convicted of sexually-charged crimes - perhaps even against children... Nearby schools and daycares will be put on high-alert, and children won't be able to play in their own front yard. It would just be a matter of time before something really bad happened.

We really don't want to see this - NOBODY DOES. Please reconsider your decision.

Thank you,

Jesse Cato
