7. I am writing to voice my concerns of the proposed conversion of the Oaks nursing facility to a low barrier homeless shelter that allows drug addicts (with no recovery plan, screening plan, with minimal oversight), sex offenders, and people with other mental health issues (again with minimal oversight) . I am aware of the homeless issues that we have in the Puget sound area but converting a building that is a mile or less from the high school and elementary which also has a neighboring child care site is reckless with the children's safety in the area. We already have the methadone clinic just north of that location and I can tell you first hand that a good majority of those frequenting the area aren't there because we have a nice neighborhood. I urge you to go stand outside the clinic or walk by when it opens up first this in the morning. I know that some people are nice but I can assure you that all are not. I have experienced it personally with the garbage being tossed everywhere, the urinating in the bushes and the obscenities thrown peoples way. I can only imagine what putting a homeless shelter down the road will bring.

I pretty sure that none of the council members seem to live in the area and thus have no personal interest in what is being proposed here. This is seemingly only a dollars and cents issue because your common sense seems to have been misplaced. Starting this proposal without adequate announcements/notification and more local consent/involvement seems crazy to me and then the location makes it boarder line insane.

Please reconsider this plan of action as I really don't want to have to move to get away from this type of situation.
8. (o) Oppose

Thank you,
City of Shoreline
