6. City council goal #5, action step #7
7. Hello City Council team members,

I am writing to respectfully express my concerns about city council goal #5, action step #7 in reference to a shelter/navigation center. The site selection process seems to entail a very limited window of notice, which will likely result in fewer opportunities for the public to share feedback. Furthermore, the proposed location of this shelter/navigation center has significant drawbacks, such as the close proximity of this location to daycares and schools, such that children might be impacted.

Additionally, WA state Senate bill # 5882 , which may not yet be signed but I believe it is up for signature, states no encampments or any associated items such as vehicles or tents, are to be allowed within 1000 ft of a daycare or school, hence rendering the location in question to be not a viable option, upon passage.

Please consider all of the above factors with regard to the decision-making process for site selection for this center.

Sincerely,
Jackie Kurlle
