6. Homeless Shelter
7. I fully support the proposed homeless shelter. Research shows that having a safe place to live while establishing a relationship with personnel is an important first step for residents. They are more likely to accept and thrive in programs designed to help them. These programs include drug and substance abuse treatment, counseling, stable housing, among many other services. The proposed shelter is also likely to reduce the number of people living on the streets in Shoreline since it will operate 24/7 365 days per year. I see this shelter as a win-win for Shoreline residents and the homeless human beings in our midst.
