7. I oppose specifically this type of shelter allowing felons and sex offenders into a residential neighborhood. This shelter is located next to a marijuana store, a methadone clinic and alcohol sales. It is in a known high crime area, next to the interurban trail, a daycare, Shorewood high school, Highlands park and in a residential area where there are children. King county in Seattle can't handle its own homeless crisis and should not be dumping the responsibility on Shoreline. There have been two new stories this week about homeless camps in the neighborhood area committing criminal activity with no intervention no police involvement and is a danger to the residents in the area. Cameras at this type of facility will only record activity and does not make it secure. Allowing sex offenders and felons without having to notify residents is a danger to the community. You will be putting a daycare that has been in business 20 years out of business because people will stop taking their children there. Having a nice chat with someone that is a danger to the community will not keep them safe. Allowing drug users and sex offenders into our community does not keep the residents safe. The potential of drugs and needles dumped on our streets does not keep our residents safe and we did not purchase our house up the street to live next door to this. We pay property tax that is extremely expensive to pay for our schools and in the past month I have personally had to call police three times because of homeless living on the school grounds at shorewood high school dumping garbage and endangering our children. These are all the things you promise will never happen and they are happening. This space could be used to house Homeless families or Children and be something the community would support. There is huge opposition to this plan from the residents over 1200 residents have signed a petition opposing this plan for this type of shelter in this location. You must listen to the people with an investment in the community, who own property and have children that we oppose this and do not want it to move forward in our community.
8. (o) Oppose

Thank you,
City of Shoreline
