7. Please reconsider housing an "enhanced" homeless shelter in our residential zones. I really don't want to have to move but you are leaving me little choice since you are putting my child's safety at risk. You have left too many things vaguely defined and avoided doing any real reviews of other failed facilities to give us confidence that this facility stands a chance of success. You are leaving us in the area left to deal with the consequences of a rushed project/idea while no city council members (that I have been able to locate) living in the area.  
  
Also, I find it odd that Dept. Mayor Scully is more worried about letting people run a business out of their own home because you can't promise that the business will be a good neighbor but is more than happy to invite 60 homeless into other peoples neighborhood. This is an excerpt from the council minutes on sept. 21. 2020 " Deputy Mayor Scully said when this first came up he thought that this would benefit neighborhoods, but since you cannot ensure that each business is a good neighbor. he would like to proceed cautiously to begin with, and expand after having the opportunity to track the impacts". Mr. Scully, what makes you think that the homeless you are inviting to my neighborhood will make qualify as good neighbors?  
  
Thank you,  
-Tylor Husske
