7. I have lived in Shoreline for forty years and have seen many changes. In the last two years so many changes have come along that I cannot keep up. Some feel very sad and very quick. I understand the need for some changes due to public transit but some I cannot understand at all. I live on the cul de sac directly behind the new Shea Apartments that are going up. This is oppressive enough but now I understand you all are interested in cutting down the trees on the west side of the Park and Ride. This makes absolutely no sense and the proposal is a crushing blow to wildlife, the environment and the overall well-being of our little neighborhood. I implore you to put on the brakes and consider these misguided decisions. Our little town needs a little tender care right about now and saving those trees at the Park and Ride is a lovely start. Thank you for your time and consideration.

Thank you,
City of Shoreline
