After seeing the photos submitted by Mr. Szafran, I felt compelled to show you an accurate depiction of what these mature trees and once "exempt" lot actually means to the community, and specifically to us. When we bought our home two years ago, we did so because of these trees and this historic community. We poured money into our property and fear that we will never be able to enjoy our hard work as we could soon be looking into the windows of up to 26 apartments. This very much feel like one man hoping to profit with the rest of the community to suffer.

If the benefit is to be close to the park and ride, why does every town home need its own parking spot and why do they need to pave an access road right over my sewer?

Please nix this plan before it can lead to more harm.
