What is the Transportation Master Plan (TMP)?

Zoom Video
is shown here

What is the
TMP?

A realistic plan
that results in
action

Zoom Video
is shown here

Why update the TMP?

- The last update to the TMP was in 2011. We must update it by 2023 to:
 - Align with the City Comprehensive Plan;
 - Meet the Growth Management Act requirements;
 - Support the City's eligibility for pursuing certain grants, and
 - Set transportation policies for guiding the development of Shoreline.

Zoom Video
is shown here

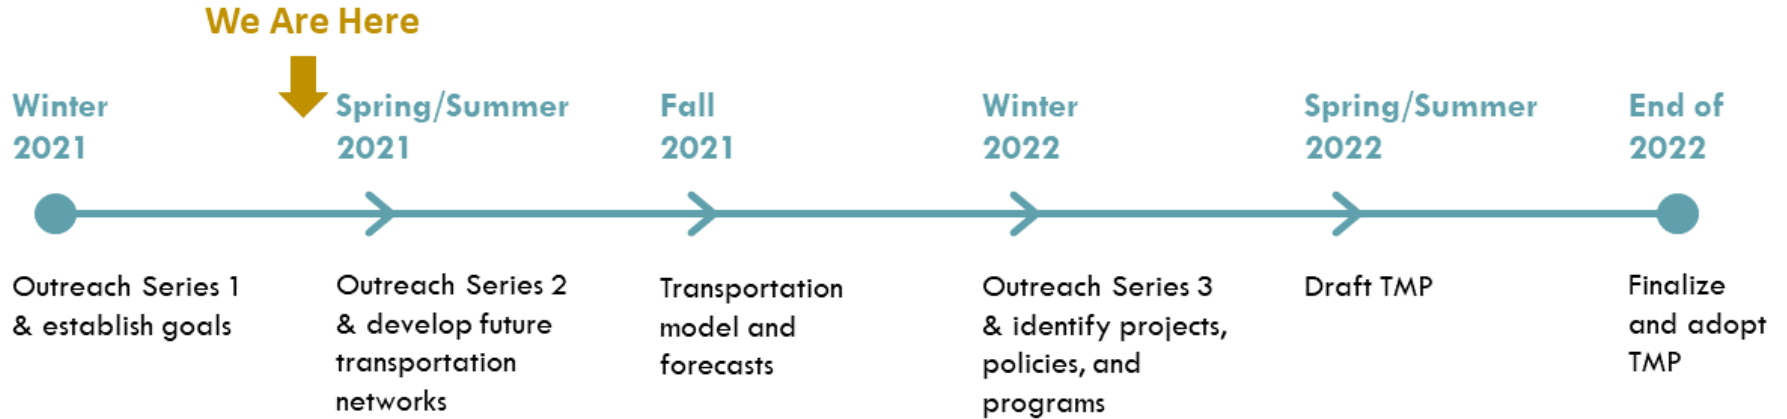

What will make the **TMP** successful?

- A clear, consistent vision
- Priorities that reflect community and Council goals
- Policies, programs, and projects that reflect existing work and future needs
- A feasible, financially sustainable roadmap

Project Timeline

Zoom Video
is shown here

Zoom Video
is shown here

Key Considerations

- Substantial growth
- Regional transit investments
- Ongoing transportation issues
- Maintaining quality of life
- Cost constraints
- Emerging technology

What have we done to date?

Outreach Series 1

Ways we heard from people

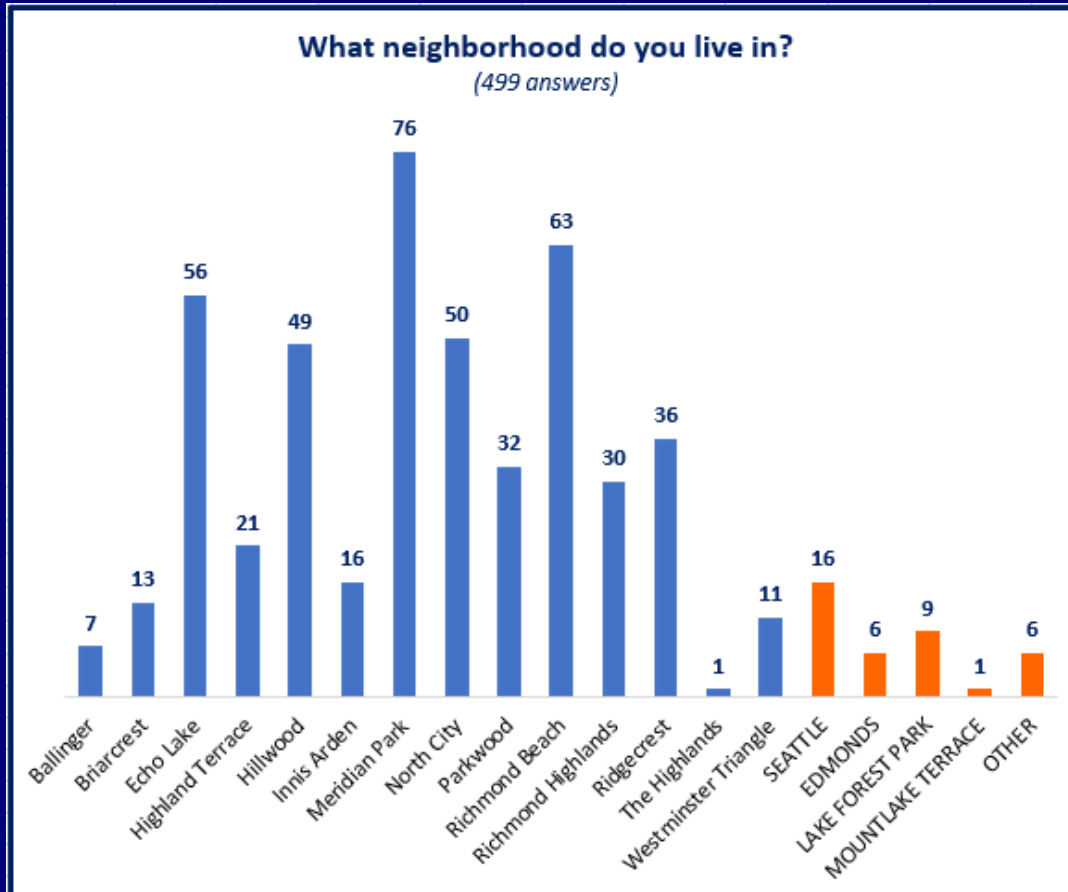

Zoom Video
is shown here

- Online survey (English, Spanish, Mandarin)
 - 500 responses
- 2 Online Open Houses
- Targeted small group meetings
 - Council of Neighborhoods Board
 - Neighborhood Associations
 - Chamber of Commerce
 - North King County Mobility Coalition
 - PRCS/Tree Board

Where Survey Respondents Live

Online Survey - Priorities

Zoom Video
is shown here

What 3 transportation topics are most important to you?
(477 responded)

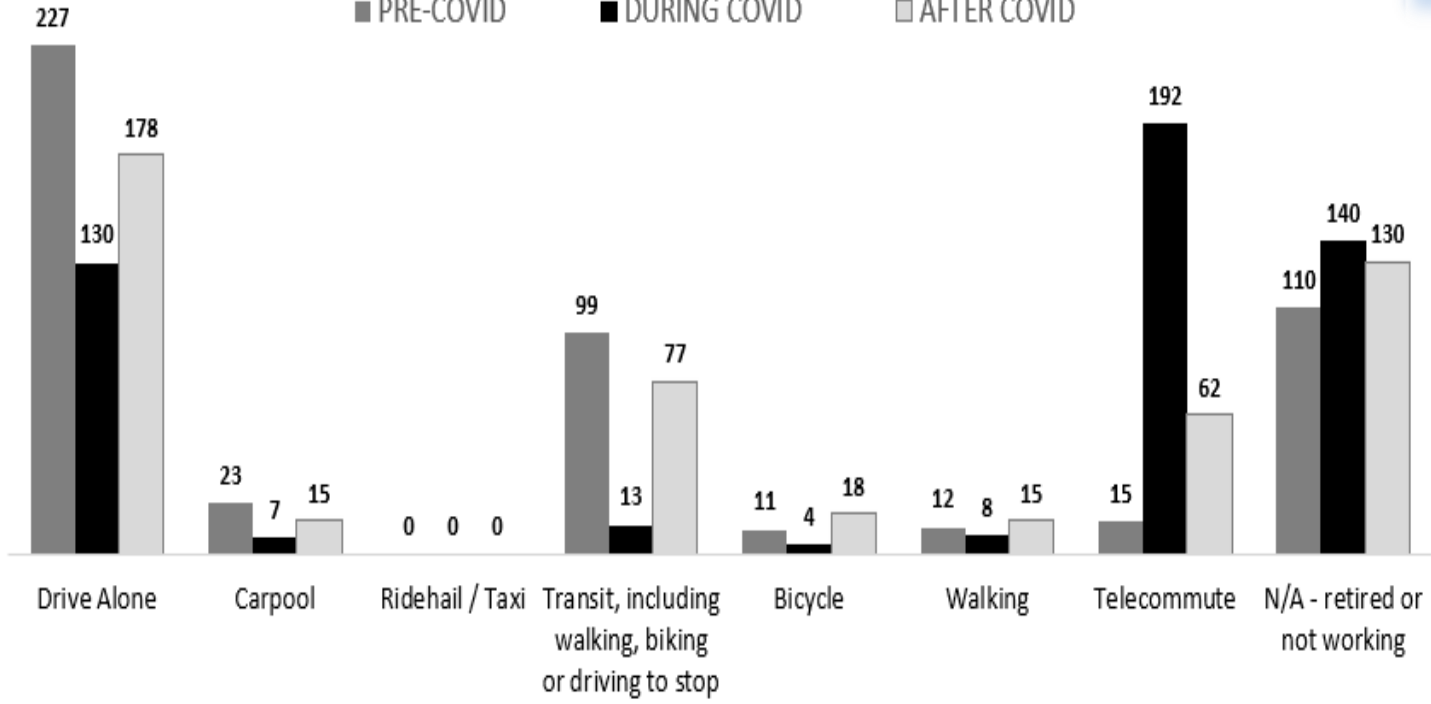

High Priorities
included:

- Safety
- Proximity
- Connectivity
- Travel Time
- Equity

Travel to work or school prior to COVID, during COVID, and expected after COVID

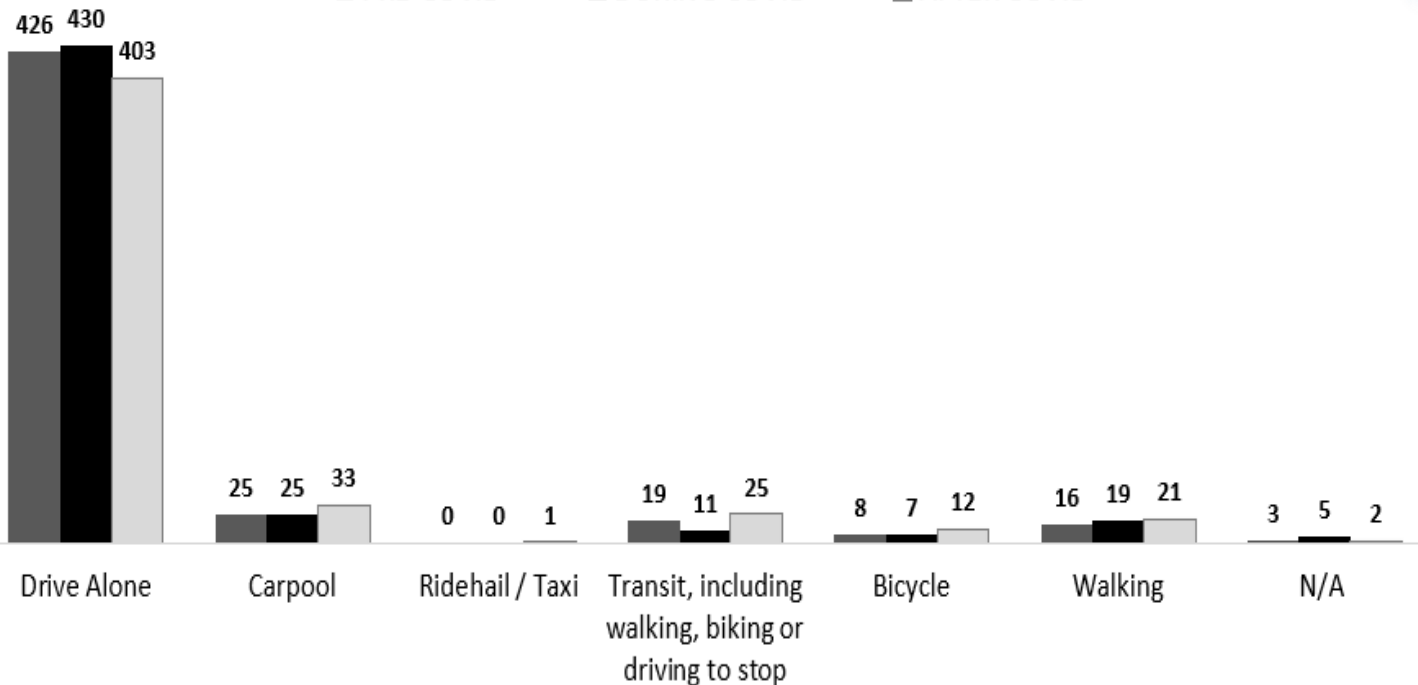

■ PRE-COVID ■ DURING COVID ■ AFTER COVID

Zoom Video is shown here

Travel for errands prior to COVID, during COVID, and expected after COVID

■ PRE-COVID ■ DURING COVID ■ AFTER COVID

Key Discussion Topics

Zoom Video
is shown here

- Safety
- Transit
- Micromobility
- Sidewalks
- Neighborhood Paths
- Bike Facilities
- On-street Parking

Draft Vision

Zoom Video
is shown here

Shoreline has a well-developed multimodal transportation system that offers safe and easy travel options that are accessible for everyone, builds climate resiliency, and promotes livability. This system has been developed over time, informed by a robust, inclusive dialogue with the community.

Draft Goals

Zoom Video
is shown here

- **Prioritize Safety**
- **Seek Equity**
- **Provide Multimodal Options**
- **Build a Connected Community**
- **Protect the Environment**
- **Support a Vibrant Community**

Draft Goals

Zoom Video
is shown here

Prioritize Safety:

- Make Shoreline's transportation system safe and comfortable for all users, regardless of mode or ability.

Seek Equity:

- Ensure all people, especially those whose needs have been systemically neglected, are well served by making transportation investments through an anti-racist and inclusive process which results in equitable outcomes.

Draft Goals

Zoom Video
is shown here

Provide Multimodal Options:

- Expand and strengthen the multimodal network, specifically walking, biking, and transit, to increase the number of safe, convenient, reliable, and accessible options.

Build a Connected Community:

- Complete a network of multimodal transportation connections to and from key destinations such as parks, schools, community services, commercial centers, places of employment, and transit.

Draft Goals

Zoom Video
is shown here

Protect the Environment:

- Make transportation decisions that increase climate resiliency by promoting sustainability, reducing pollution, promoting healthy habitats, and supporting clean air and water.

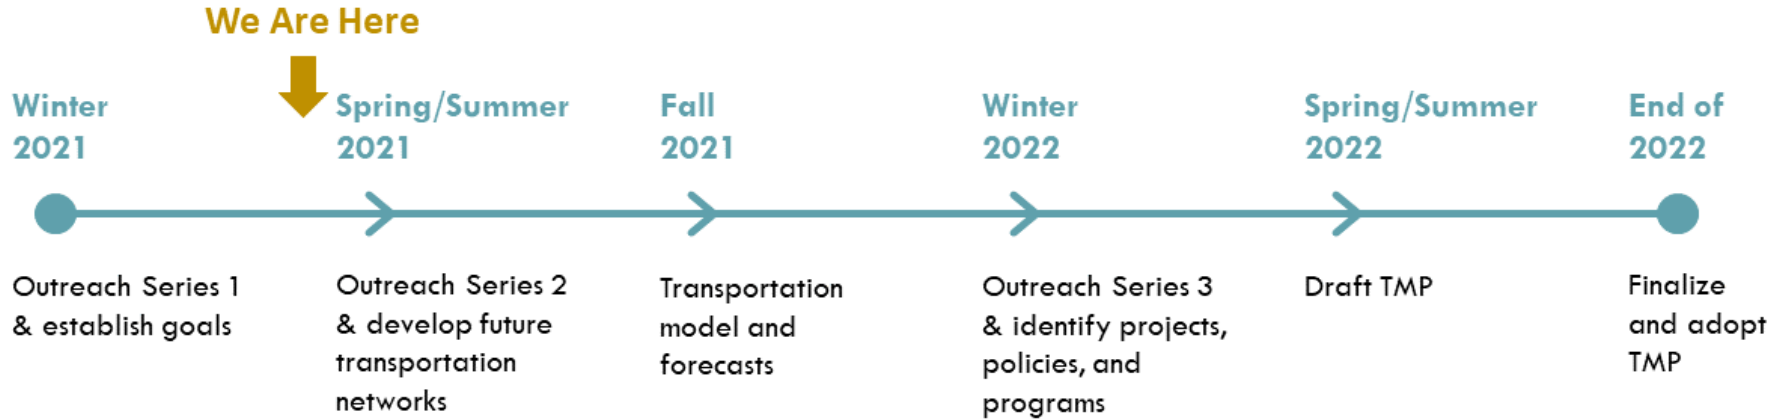

Support a Vibrant Community:

- Make transportation decisions that support livability by evoking a sense of identity through arts/culture, attracting and sustaining desired economic activity, and accommodating the movement of people and goods.
