Subject: [EXTERNAL] Sharrows needed on eastbound Richmond Beach Road where bike lane ends

CAUTION: This email originated from outside of the City of Shoreline. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Kendra,

Do you know whether the bike sharrows we discussed last year will be painted this summer on eastbound Richmond Beach Road starting where the bike lane ends near Dayton Ave N and continuing east to Aurora? Especially for the Dayton to Aurora segment, it's very dangerous for bikers who ride from Richmond Beach to Aurora and the Interurban Trail.

The sharrows should be viewed as an interim safety measure. What we really need is a dedicated bike lane that runs from Richmond Beach directly to the 185th Street light rail station. Please add this to the TMP.

Could you please add this email as a public comment to the TMP update which is on the agenda for tonight's Council meeting.

Thank you.

Tom McCormick
