

# TRANSPORTATION MASTER PLAN

## What is the Transportation Master Plan?

The City is currently updating its Transportation Master Plan (TMP) to better serve the community's current and future transportation needs. The TMP supports all forms of travel – by foot, bicycle, skateboard, scooter, stroller, wheelchair, transit, motorcycle, automobile, etc. The TMP update will guide local and regional transportation investments and define the City's future transportation policies, programs, and projects for the next 20 years.

## Why is the Transportation Master Plan being updated?

The last update to the TMP was in 2011. We must update it by 2023 to align with the City Comprehensive Plan and meet the Growth Management Act requirements, maintain the City's eligibility for pursuing future grant funding, and set transportation policies for guiding the development of Shoreline.

With the coming arrival of light rail transit, new and higher frequency bus service, new pedestrian/bicycle connections, and land use changes and growth, the TMP update provides an opportunity to better align transportation goals, objectives, and policies with the City's Comprehensive Plan vision.

## Why should I participate?

The City needs YOUR help making decisions related to transportation. We need to know which improvements are most important to you and hear your ideas about how to keep our transportation system safe, healthy, and efficient. This plan influences decisions for the next 20 years, so the time to weigh in on changes you'd like to see is now!

## How can I get involved?

### Participate in an Online Open House.
