

CLUB PROGRAM

**STEERING WHEEL LOCK
"CLUB" TWIN HOOKS**

The Steering Wheel Lock, or "Club", fits cars, trucks and SUV's. They are available at both Storefront offices:

\$18

(check or money order only)

The more protected your vehicle is, the more difficult it is to steal.

Devices have solid steel hooks for greater security. Cro-moly steel construction resists sawing, prying, and hammering.

Auto Theft "Task Force" devices from Winner International/The Club, 32 West State St., Sharon, PA 16146

ANTI-AUTO THEFT PROGRAM

Put the Brakes on Vehicle Theft

Protection...

DO THE MATH

Auto Theft Stat's

An auto theft occurs about every 26 seconds in the United States. Add it up and that's 1.2 million vehicles each year that wind up in the hands of thieves.

The math doesn't get any better when you consider how much this costs all of us.

More than 1 in 3 cars stolen in Shoreline were left unlocked.

LOCK YOUR DOORS

Take steps to make your vehicle less attractive to a thief. There are some simple common sense steps and other protective measures that can help us reduce auto theft and prevent you from becoming a victim.

COMMON SENSE

These are simple and don't cost you a thing:

- Lock Your Doors
- Remove your keys from the ignition
- Close your windows completely
- Park in well-lit areas
- Remove valuables, packages and mail from view

VISIBLE

OR AUDIBLE DEVICE

We find vehicle alarms annoying when they go off. Even better, so do car thieves...and they avoid autos with alarms or anti-theft devices! Consider adding a visible or audible anti-theft device to your vehicle.

- Audible alarm system
- Steering wheel locks
- Steering column collars
- Theft deterrent decals
- Wheel locks
- Window etching

VEHICLE IMMOBILIZER

Thieves can bypass your ignition by "hotwiring" a vehicle. You can put the heat on the car thieves by installing or utilizing a vehicle immobilizer system.

- Smart keys with computer chips that must be present to start the vehicle
- Fuse cut-offs
- Kill switches
- Starter, ignition and fuel disablers

TRACKING SYSTEM

Tracking systems emit a signal to police or a monitoring service when the vehicle is reported stolen. If your vehicle has a tracking system and is stolen, it can often be recovered faster and with less damage. Put your vehicle on the radar screen by installing a tracking device.
