7. I live in Kenmore and fossil fuel emissions in Shoreline know no boundary. The fact you are discussing requirements for all-electric new construction makes you a leader in our region. Kenmore, Lake Forest Park and other cities will be prompted to follow in your footsteps. The recent IPCC report said we are in Code RED. There is no question that the world must stop fossil fuel emissions for a livable future. Shoreline can take one step and demand all-electric new construction as soon as possible.
