6. Natural Gas Ban
7. As much as I care about changing our actions to create a healthy planet, it's a bad idea to ban natural gas without having a clear understanding of where all of that additional energy (in a rapidly expanding community), will come from.  
Also, eliminating one energy source from our community, further strengthens Seattle City Light's monopoly & puts us at risk for energy shortages, rolling blackouts & massive failures, as we've seen elsewhere.  
Thank you.
