**Respond to the moment. Be recognized for real action.**

ICLEI150 is ICLEI's long-term commitment to helping you achieve your 2030 target and then your climate neutrality by 2050.

# Requirements

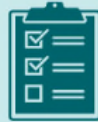

## Join the Movement

### Pledge

to reduce GHG emissions to zero by 2050 and set a interim 2030 target.

### Plan

the actions to achieve both the 2030 and 2050 targets within 12 months of joining

### Proceed

with high-impact action to achieve the targets during 2021

### Publish

and report Race to Zero targets, actions, and progress

# Why Join

- We are not on track to meet our 2020, 2030 or 2050 GHG emissions reduction goals
- Addresses the 2019 Comp Plan Amendment regarding a 1.5° C limit on global warming
- Provides a clear framework for our Climate Action Plan update

# Benefits of Joining

- Shoreline-specific, science-based 2030 GHG emissions reduction target to achieve our fair share of the Paris Climate goals
- Customized list of high-impact actions to achieve our 2030 target
- Technical assistance for implementation

# Next Steps

- Complete the ICLEI150 Race to Zero Commitment Sign-On form
- Declare a climate emergency via resolution
- Take at least one high-impact action in 2021
