7. As a Shoreline resident concerned with the rapid loss of our mature urban tree canopy, I would like to urge the Planning Commission to recommend the protective tree amendments submitted by the Tree Preservation Code Team to the Shoreline City Council. We have an opportunity, not to halt urban development and growth, but to encourage it to include the natural environment as a stakeholder. Biodiversity across the world is plummeting, the climate is

rapidly and dramatically warming, and it is frustrating and tragic to continue on with what has led us to this point, as if everything was fine. Shoreline may be just one city, but we all have to do what we can, where we are.

Thank you,
City of Shoreline
