

TRANSPORTATION MASTER PLAN

What is the Transportation Master Plan?

The City is currently updating its Transportation Master Plan (TMP) to better serve the community's current and future transportation needs. The TMP supports all forms of travel – by foot, bicycle, skateboard, scooter, stroller, wheelchair, transit, motorcycle, automobile, etc. The TMP update will guide local and regional transportation investments and define the City's future transportation policies, programs, and projects for the next 20 years.

Why is the Transportation Master Plan being updated?

The last update to the TMP was in 2011. We must update it to align with the City's Comprehensive Plan periodic update by 2024, meet the Growth Management Act requirements, maintain the City's eligibility for pursuing future grant funding, and set transportation policies for guiding the development of Shoreline.

With the coming arrival of light rail transit, new and higher frequency bus service, new pedestrian/bicycle connections, and land use changes and growth, the TMP update provides an opportunity to better align transportation goals, objectives, and policies with the City's Comprehensive Plan.

What is the schedule?

The TMP update will be a multi-year process with the goal of completion by the end of 2022. There will be multiple opportunities throughout the process to learn about the project and give feedback.

What's Happening Next?

Over the winter 2021/2022, the project team will build on the knowledge gained from Outreach Series 1 and 2 and the future travel demand model. The project team will use this to develop a draft layered transportation network of modal plans for pedestrian, bicycle, transit, shared-use mobility, and auto/freight modes. In addition, the project team will draft multimodal level of service (MMLoS) policies.

Why should I participate?

The City needs YOUR help making decisions related to transportation. We need to know which improvements are most important to you and hear your ideas about how to keep our transportation system safe, healthy, and efficient. This plan influences decisions for the next 20 years, so the time to weigh in on changes you'd like to see is now!

The team plans to conduct Outreach Series 3 in April 2022 to get YOUR feedback on draft modal plans, policies, and the project evaluation framework.

How can I get involved?

Sign up for email updates under [Alert Shoreline](#) by adding Transportation Projects and Planning to your profile.
