I am a resident of Shoreline. I am also a member of Save Shoreline Trees

I have been fighting to protect trees ever since the Department Of Transportation cut down over 5,000 in our area to create a transport system to help alleviate climate change issues. Trees that do more to store carbon had to come down.

Now it's sidewalks .. sidewalks put in on 5th Avenue Northeast to support this same transport system and CLIMSTE ISSUES

However the existing plan is to cut down most of the tall elder trees because a sidewalk is more important.

This should not be a sidewalk over Trees issue!

Who will want to walk on a street with no trees with no shade in the heat that we're creating by cutting down all the Trees???

Pleas save as many as possible
