7. Hello,

Rezoning to MUR-70 took place several years ago and we are finally getting to the point where developers can start breaking ground... until this electrification issue arose. Developers have spent millions in permitting only to be faced with this problem. I feel the City of Shoreline needs to do everything possible to keep developers interested in the Shoreline area or they will simply build in a city that makes it easier and more affordable on them.

I kindly ask for you to come up with a quick solution to solve South Shoreline/148th electrification issue to prevent any further delays in the progress of increasing the population density along Shoreline's light rail.

Best regards,
Kaleb Rosenberg
