7. Dear City Council:

According to a report just released today by the Intergovernmental Panel on Climate Change, a body of international experts convened by the United Nations, "The dangers of climate change are mounting so rapidly that they could soon overwhelm the ability of both nature and humanity to adapt unless greenhouse gas emissions are quickly reduced." <https://www.ipcc.ch/report/ar6/wg2/>

Our urban canopy is the best tool we have to reduce greenhouse gas emissions and fight climate change. And it's the most accessible tool we have because it's already in place, doing its job, protecting us. Let's protect it in return.

Thank you for all you do!  
Jean Hilde
