7. Tree preservation should be prioritized when redevelopment is being proposed for an area. In our immediate neighborhood just east of Aurora and north of 175th (the so-called Town Center) we see mature trees being removed even when they are on public property or at the edge of a lot. These situations should require additional attention in the permitting process, since such trees already are endangered by impermeable surface challenges. Shoreline should encourage tree replanting whenever a property owner indicates that a tree or trees should face removal.

Thank you,
City of Shoreline
