7. Save our trees. It seems incredibly stupid to be cutting down mature trees to widen our sidewalks. You can put a grid around the base of the current trees and still widen the sidewalks. There isn't that much foot traffic where people would be needing to pass each other side by side. They can take turns, just like we give each other room now during the Pandemic. What are the designers thinking? I swear, the changes taking place in Shoreline are NOT GOOD! You are buidling more housing to bring in more people; only to remove trees, green areas, wetlands, etc. We are crowded enough. Instead, you should be concentrating on getting the homeless, drug addicts, bums, and criminals out of our city. I know many neighbors that have moved out of Shoreline because of these problems. They are disgusted with your decisions and lack of cleaning up the city. The crime is out of control!

Thank you,  
**City of Shoreline**
