7. Agenda Item 9(c): Discussion of Ordinance No. 967
8. I am a resident and homeowner on 27th Ave NW, a property that has been in my family for over 50 years. The Council would be remiss to vote prematurely to accept Ordinance No. 967.

I am in favor of more public beach access and have reviewed and appreciated community ideas on how to increase safe access to beaches, including approaching Burlington Northern for acquisition and the addition of foot bridges. I enjoy chatting with and seeing the many kind and respectful neighbors who pass by our home to visit the beach. We have been introduced to and become dear friends with some of these neighbors as our kids have played together on the street and beach. However, I think this current plan is needlessly rushed and has not adequately considered many elements that must be vetted, including safety and access issues. As such, I urge you to reject Ordinance No. 967 and develop a thorough plan after meaningful community input and after all relevant factors have been considered in a transparent manner. The City should take the time to get this right.
