I am strongly in favor of the purchase by negotiation, or eminent domain, of the beach property at the end of 27th Ave NW. It has been used as public property for decades and not as private property. This action will affirm the public use of the land, extend and make continuous the connection to the park land to the south. At the same time, or as separate action, there should be an easement for public pedestrian access down 27th Ave NW via negotiation with the private property owners or Burlington Northern, whom share that road, which the public has also been using for decades.

**Regards,**
