Dear Council:

We urge your support the following improvements to Resolution

*“3. Ecosystems: protecting and restoring the health and functioning of local ecosystems by incorporating green infrastructure in community design, protecting all natural assets, **including established trees, wetlands, waterways, soils, and other ecosystem elements**, and actively restoring damaged ecosystems to maximize biodiversity, stormwater management, and carbon sequestration;”*

This will make a vital protection for the people of Shoreline and the wildlife habitat that we all depend on.

Best Regards,

Janet Way,
SPS
