I am writing today September 3, 2022 to ask for your support to add Keep Trees to Mur-70, developers must save a minimum of 10 percent to Mur-70 future building developments.

I read today in Currents from the City of Shoreline that on August 15 the City Council passed Resolution 494 declaring a climate emergency and directing the City to take accelerated and comprehensive action to address the problem.

However,  
not once were the value of our standing Trees even mentioned!!

That means it's time for City of Shoreline to  
**RECOGNIZE AND UTILIZE THE VALUE OF OUR STANDING TREES** in all commercial building sites. Your current rules will create heat islands, increase pollution and the costs of energy to residents.

We as residents of Shoreline are watching.  
Isis Charest
