6. 09/12/2022
7. Tree Retention Codes on MUR-70' zones
8. Trees reduce heat islands due to urban asphalt. People living and working near are forced to use more AC or suffer the health risks of exposure to the increasing incidence of extreme heat.
I support the following proposed tree codes in MUR-70' zones:
10% tree retention for 70' buildings
15% tree retention for 80' buildings
20% tree retention for 90' buildings
20% tree retention for 140' buildings
Deep Green Incentive Program or built green programs will not cancel out tree retention
9. Support

Thank you,
City of Shoreline
