7. 9a. Discussion of the Draft 2022 Climate Action Plan Update
8. Good evening! I couldn't attend the meeting tonight, but I want to express my complete/unwavering support for the Draft 2022 Climate Action Plan. As said today by UN Secretary General Antonio Guterres "We are on a highway to climate hell with our foot on the accelerator." We owe it to our children to stop stalling.

I have worked in the sustainability sector (mostly greening commercial buildings but homes too) for 15 years am very impressed with the plan that Cascadia Consulting has helped Shoreline create. I applaud the City for bringing together a diverse group of Shoreline stakeholders to contribute to the process, and making extra effort to consider the impacts on the most vulnerable in our communities. Though there will likely be some voices that will say that the plan doesn't do enough to save shorelines trees, I think the draft plan strikes the laudable balance across all solutions and their respective GHG reduction impacts. We must take bold steps to meet this ambitious plan, and demonstrate that Shoreline cares about the future enough to give it the attention it deserves.
9. Support

Thank you,
City of Shoreline
