Hello,

Please please vote to fund planting trees, not cutting down trees, and doing everything in your power to create shade and protect our walk ways from heat domes. I'm sure you have all experienced being caught in a hot spot on a hot day, but likely not as often as many who rely on walking to work, public transportation, and so on. I see also that schools creates these heat domes. More trees please. Vote yes on Amendments 2&3, investing in more tree canopy and investigating heat zones and what can be done to protect our walk ways.

Thank you  
Jamie Hartung
