Shoreline, WA 98133
November 21, 2022

To: City Council: Keith Scully, Betsy Robertson, Doris Fujioka McConnell,
Laura Mork, Eben Pabee, John Ramsdell, Chris Roberts

Subject: Comment about Agenda Item 8(a), August 1, 2022

Dear City Council Members,

I am adding my voice to the many, including staff, for:

- Amendment 2 to provide funding for an Urban Tree Study (UTC) in 2023. This would accelerate the existing UTC schedule to provide more meaningful data regarding the impacts of the light rail on our canopy.
- Amendment 3 to complete the public street tree inventory in a timelier manner. This inventory effort was at least a decade behind when it began. So, getting it done is important. After all, can the city say it is managing assets when it doesn't know what assets it has.

Additionally, I beseech Council to invoke RCW 36.70A.390 placing a moratorium on the removal of public trees for as long as Climate Emergency Resolution 494 is in effect.

Much of Shoreline is already suffering from the effects of heat islands making it critical to safeguard the mitigations offered by our trees. This is growing in importance as new development continues to denude the land of trees based on current development codes. These large new buildings are increasing the number and impacts of heat islands by removing trees while simultaneously absorbing and dissipating heat around them.

Always,

Boni Biery
Shoreline citizen and voter
