RE: RFQ 1237527 – Towing & Impoundment Services

The City's responses to the questions received by May 21, 2024 for this RFQ are as follows:

1. Will this program be a standalone program from both Norcom and the king county sheriffs dept?

This will be a standalone program of the City of Shoreline. It will not be affiliated with Norcom or the King County Sheriff's Office.

2. Will this be a rotation list like KCSO or an exclusive contract?

We intend to bring on at least two towing and impoundment contractors. We intend to use the companies in rotation.

3. Will you be considering companies that do not have HD tow trucks in their fleet as there is only 3 of us in the 15-mile radius.

The request for qualifications (RFQ) asks for contractors with specialized equipment for towing vehicles such as limousines, recreational vehicles (RVs), tall monster trucks, or tractor trailers. Vendors are not required to have all requested specialized equipment to be considered. Proposals will be scored according to the requirements outlined in the RFQ.
